Attention: Lifetime Income RFI

Social Security is a failed (soon bankrupt) Government system. Medicare and Medicaid are both failed (bankrupt) Government systems. And yet a new Government system is being considered to wrest control of my individual retirement savings! Stop the madness!.

Please keep your hands off my retirement funds. Since 1985 I have complied with all Government rules and regulations regarding my 401K. I was perceptive enough to manage my account through the recent financial "crisis", WITHOUT LOSS. I don't want your help, nor the help of any of the so called experts, (listed below), who presented their case for Government control of my retirement. I can take care of myself. Others can too. We don't want nor need your help. Stay out of my personal affairs. Teach others how to stand on their own two feet and take care of themselves. The proposed attempt to rob me of my life's work will not stand.
